SKILLS

Programming: *Python (NumPy, Pandas, Matplotlib, SciPy), R, Java*

Mathematics: *Real Analysis, Differential Equations, Abstract and Linear Algebra, Probability, Statistics*

Tools: *LaTeX, Excel, Git*

EDUCATION

University of Warwick (2024 – Present)

Mathematics G103 (MMath)
First Year Grade: 87.4%
Highlighted Modules:
Analysis II (93%)
Algebra II (92%)
Methods of Mathematical Modelling II (92%)
Programming for Scientists (92%)

St. Olave's Grammar School (2017 – 2024)

A-Level: Maths (A*), Further Maths (A*), Physics (A*), RS (A).
AS-Level: Computer Science (a)
GCSE: 10 GCSEs grade 7-9.

PROJECTS

Black-Scholes-Merton Model for Options Pricing

https://amsih.github.io/projects/BSM.html |Aug-Sep 2025

- Implemented Black–Scholes–Merton model in **Python.**
- Derived pricing formulas and simulated option payoffs under varying volatility assumptions.
- **Extended model** by relaxing constant volatility among other assumptions; applied **numerical methods** to ensure pricing accuracy.

Kaggle

https://www.kaggle.com/amsihamish | Ongoing

- Engaging in Kaggle competitions to retain **machine learning** and **data analysis** skills.
- Earning Kaggle course certifications in **machine learning**, **time series analysis** and more.

WORK EXPERIENCE

Mathematics and RS Tutor

Spark Tutoring | March 2025 – Present

- Delivered weekly Mathematics and Religious Studies tutoring; designed exam prep materials and assignments.
- Notable increase in tutee grades **+2 levels (GCSE)**.

Treasurer

St. Olave's Sixth Form Association | Dec 2023 – Dec 2024

- **Managed £3,000 budget** in purchasing new furniture and decorations for a Common Room project.
- **Successfully pitched** to senior staff and financial team, allowing for execution of the project plan.
- Promoted **long-term financial stability** via fundraising events and financial planning.

Second Year MMath student at the University of Warwick interested in Quantitative research, data analysis and machine learning opportunities.
